

GOLDEN HOUR™ TECHNOLOGY

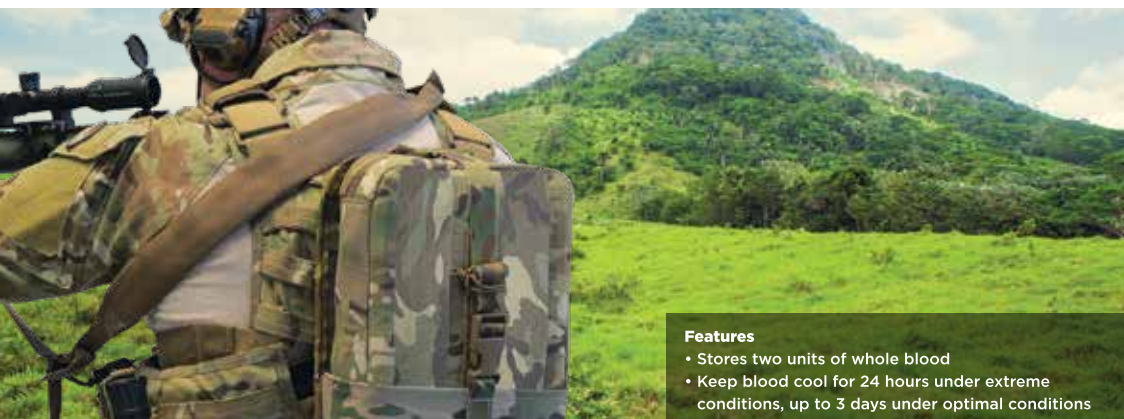

GOLDEN HOUR™ TECHNOLOGY

Winner of the 2003 "US Army's Greatest Invention Award", Golden Hour™ technology was developed to protect the lives of military personnel on the frontlines by safely transporting blood in a critical amount of time.

The very same patented and award-winning technology provides superior thermal protection for high-value, temperature-sensitive payloads in our renowned Golden Hour™ Mobile and Golden Hour™ Medic containers.

WHY CHOOSE GOLDEN HOUR™ SYSTEMS?

- Ease of use - modular design for quick assembly and efficient inventory storage
- Nimble and tactical for delivery of whole blood to the point of injury within a crucial window of time
- Designed and tested to last in the harshest conditions.
- Low profile and life-saving
- Quality, durable construction

- Features**
- Stores two units of whole blood
 - Keep blood cool for 24 hours under extreme conditions, up to 3 days under optimal conditions
 - Designed and tested for harsh environments
 - Reusable carrier mounts on medic's kit
 - GMC pouch includes accessory storage options
